### Coursera – Data Structures

Certified in Data Structure authorized by University of California and scored 99% in the course. Studied subjects - Array, linked list, stacks, queues and trees to proceed to advance data structures

## PERSONAL PROJECTS

### Amazon Clone using ReactJs (01/2022 - 02/2022)

- ReactJs, Firebase Hosting, Firebase Auth, Firebase Storage, React-Dom, React Redux & Stripe payment
- This is a clone of popular e-commerce website Amazon. It would make searching, viewing and selection of a product easier for user's specific to their needs. I have created it with React in frontend, Node and Express for backend and MongoDB for storing data.
- <https://github.com/JustVibhor/amazon-clone-website>

### Consumer Relationship Management System (10/2022 - 11/2022)

- Java, HTML, CSS and Javascript.
- Customer relationship management (CRM) is a system for managing a company's interactions with current and future customers. It often involves using technology to organize, automate, and synchronize sales. Company employee must keep track of current and future customers to synchronize sales.
